

# Creator of Creation

A book requires an author - like a program requires a programmer - like a poem requires a poet - like a design requires a designer - like an invention requires an inventor - like creation requires a Creator.

*When we see an artwork, do we believe that the artwork created itself, or is it self-evident that an artist created it?*

*Animals are programmed for survival (zoologists call it instinct). Who is the programmer?*

*Science acknowledges that all scientific laws are constant and governed. If this is so, who is the governor?*

*Science also acknowledges a design for all of creation. Who is the designer?*

*There is much talk about the Laws of Nature. Who is the one upholding these Laws?*

*Did creation really create itself? One option is to believe in Darwin's clever 'Evolution' who if given enough time can theoretically create (from nothing) all creatures of intricate design then program them with a moral sense and instinct. Or, we can believe that behind all things in creation is an incredible Creator. (Psalms 19:1)*
